EXPERIENCE

BRAINSTORM

come up with three different ideas of themes + interactive features

PHASE 0

Idea 1: Horror movies

Theme: Horror movies

Have two rows of 3 or 4 horror movies and when one is click, it tells information about the movie, actors, and how much it had earn in the box office.

Interactive JS Feature #1

Your explanation here...

When you click the image, it adds the video and description from the movie.

Interactive JS Feature #2

Your explanation here...

You can click other horror movies to change other videos

Interactive JS Feature #3

Your explanation here...

Idea 2: Heavy metal music

Theme: Heavy metal music

There will be one section with tree songs and I would add a enroll to change three different songs.

Interactive JS Feature #1

Your explanation here...

When the image is click, there will be music from the image.

Interactive JS Feature #2

Your explanation here...

Adding information of the songs.

Interactive JS Feature #3

Your explanation here...

Idea 3: Any Comics

Theme: Comics

I will put in two rows with three comics that could be Marvel, Dc, and any other comics that is not related to Marvel or DC.

Interactive JS Feature #1

Your explanation here...

When the image is click, it will add sounds of the character and information.

Interactive JS Feature #2

Your explanation here...

I would add sounds of the character and information.

Interactive JS Feature #3

Your explanation here...

EVALUATE

think about the good and bad for each idea then choose one

PHASE 1

Evaluate + Choose Your Idea

	Pros	Cons
Idea 1:	The pros for this idea is just showing each horror classic movie in a row and add a different section of modern horror movies.	I maybe add a enroll or a arrow to move the row
Idea 2:	Just showing each music and adding sound so that people can hear the song.	Probably adding pics around the website
Idea 3:	For pros, this shows each comic from marvel, dc, or anything that isn't related to marvel or dc and tells information about each comic.	I also might add more pics of characters?

CONTENT

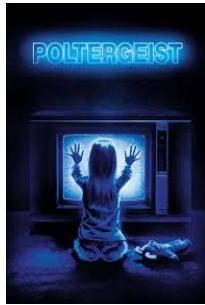

gather and edit essential content for your site

PHASE 2

Save images on your computer or in your Google Drive to maximize quality!

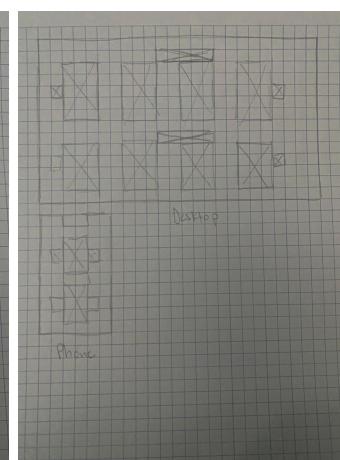

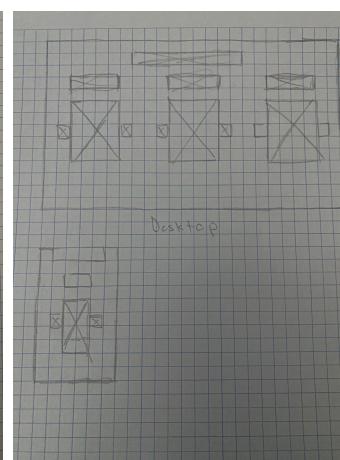

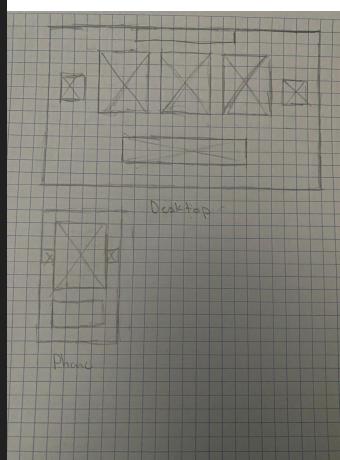

You want to see the exact shapes of your images to help understand the best possible layouts!

DESIGN

create three possible responsive designs for your chosen idea

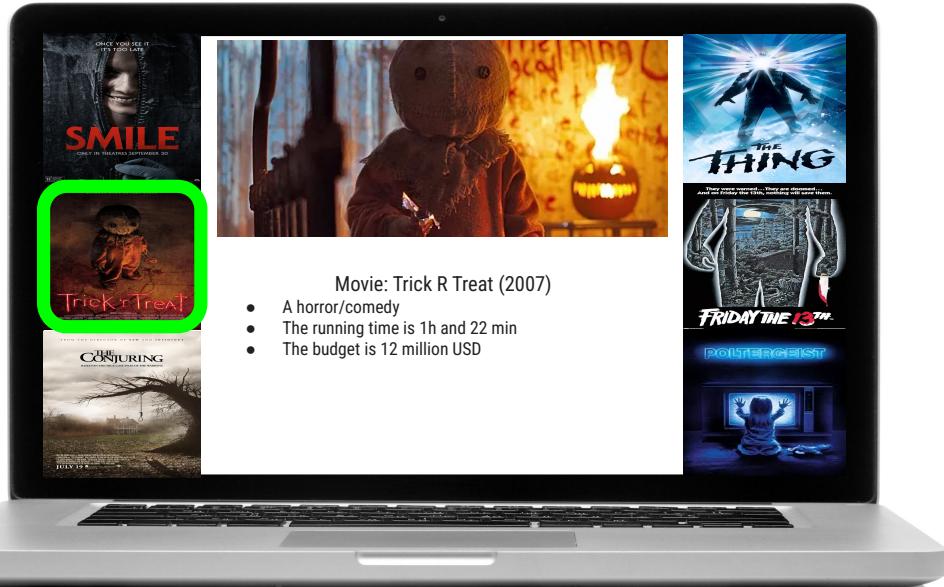

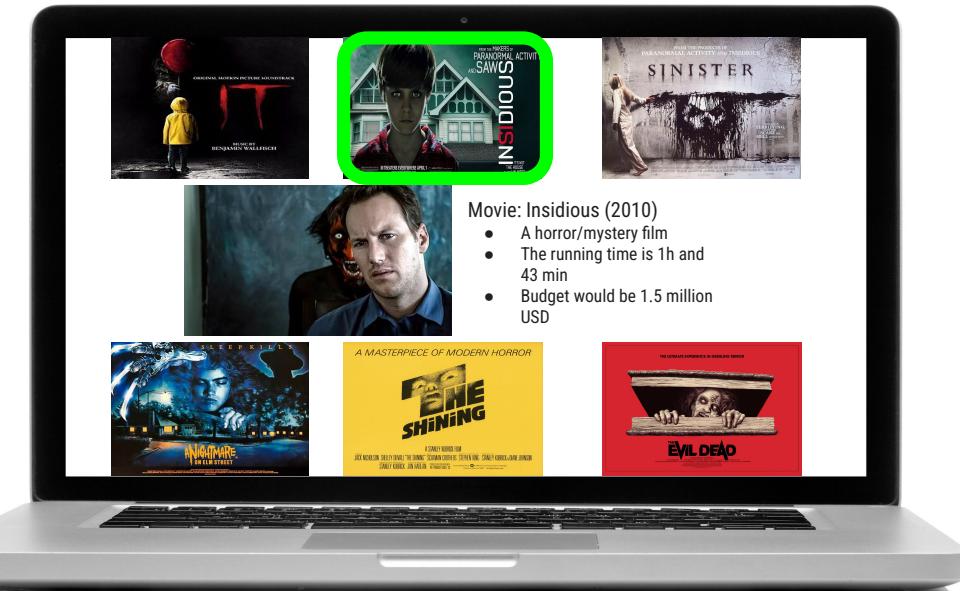

PHASE 3

MOCKUP

choose your final layout and create a digital mockup

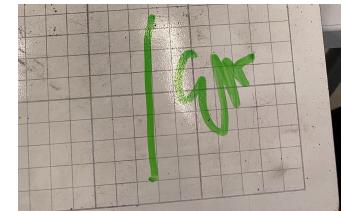

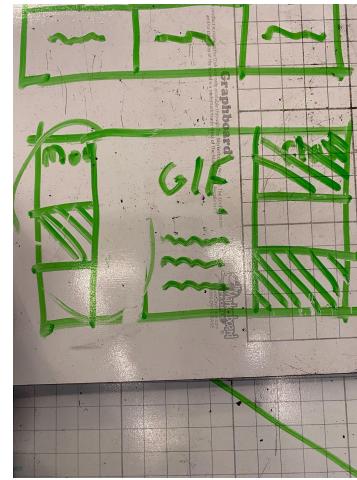

PHASE 4

ANNOTATE

add explanations, colors, percentages, and display properties + draw your dom

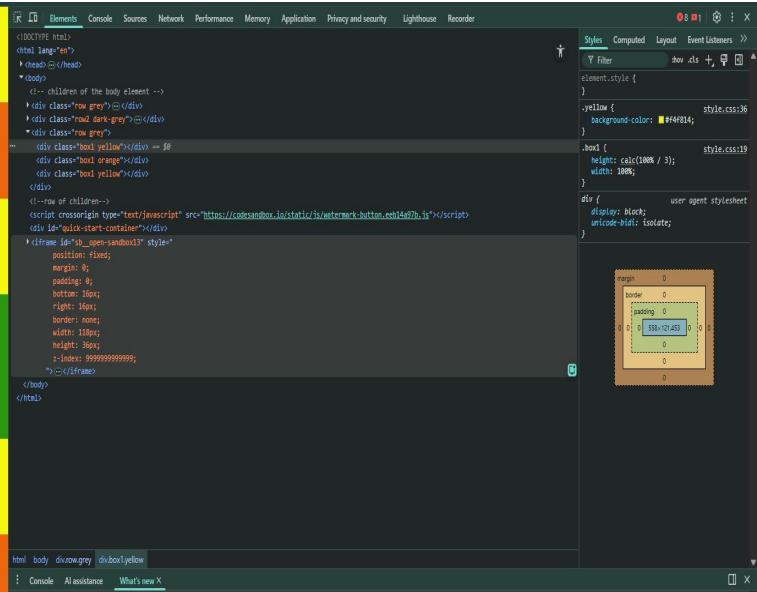

PHASE 5

BUILD

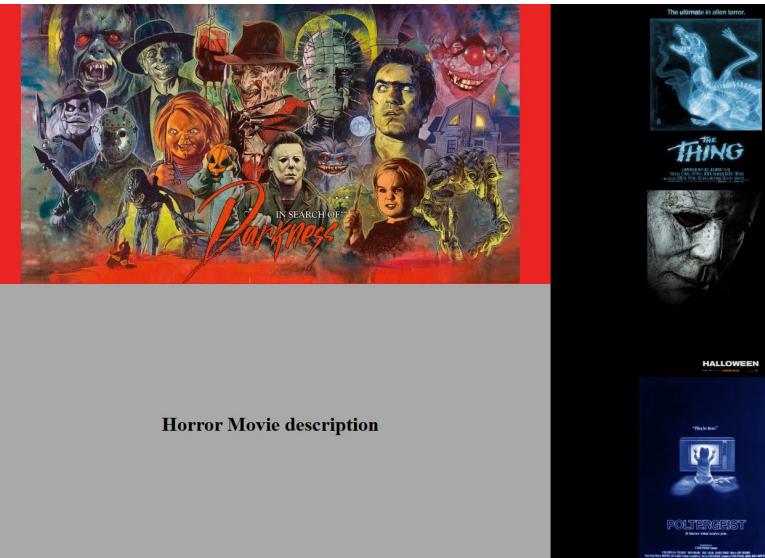

create your desktop divs using html and css then make it responsive

PHASE 6

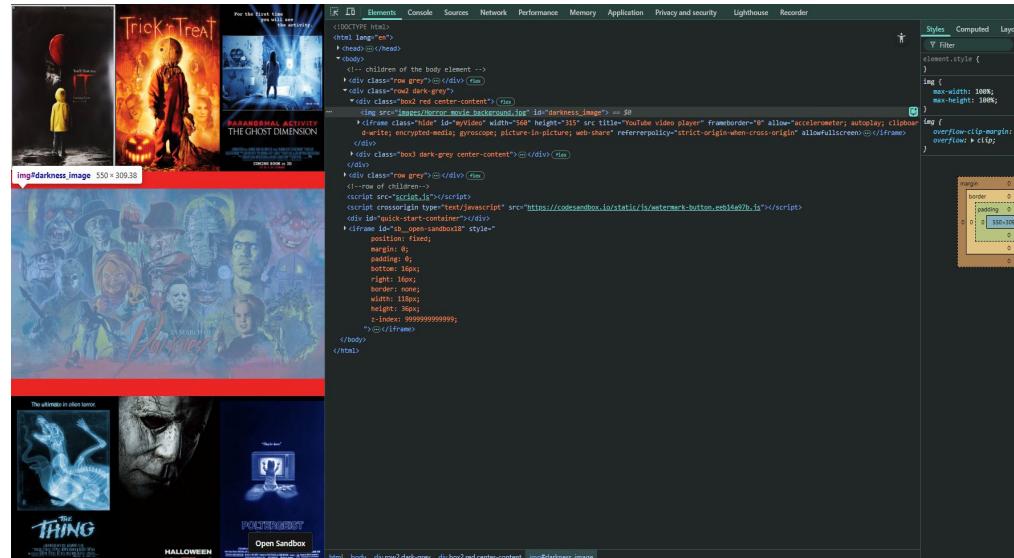

CONTENT

insert all images and text into your site

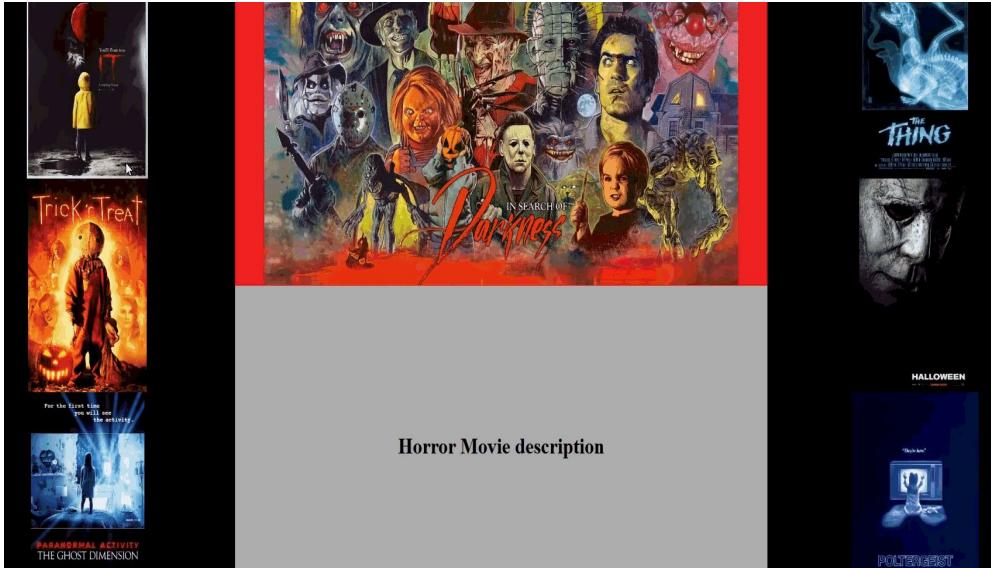

Horror Movie description

JAVASCRIPT

add behavior to your page by inserting two pieces of javascript

PHASE 8

Horror Movie description

ENHANCE UX

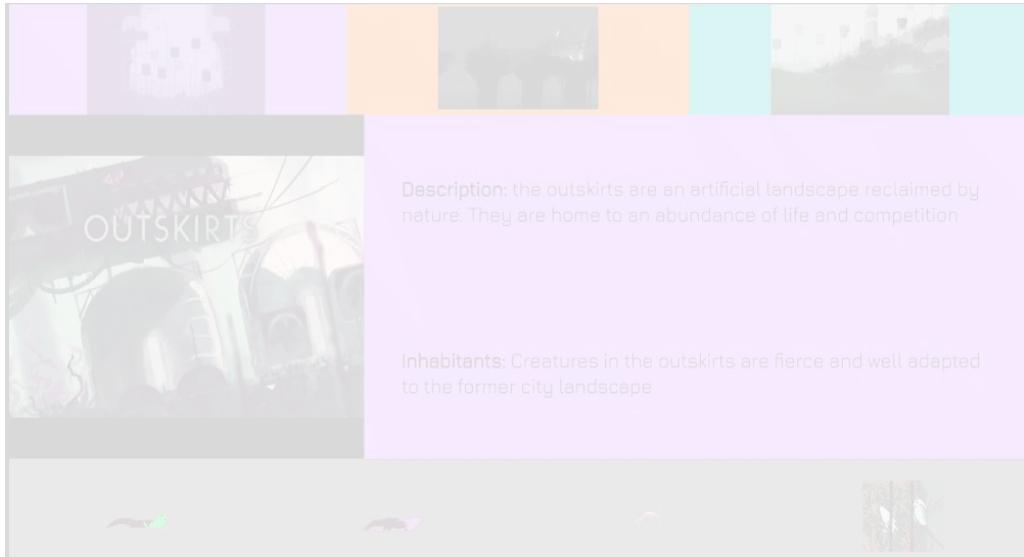

add in effects when the user hovers and clicks to make the page intuitive and fun

PHASE 9

TEST + ITERATE

get feedback from users then make revisions to your user interface

PHASE 10

Description: the outskirts are an artificial landscape reclaimed by nature. They are home to an abundance of life and competition

Inhabitants: Creatures in the outskirts are fierce and well adapted to the former city landscape
